Services for Caregivers

Caregivers often find the task of caring for another person to be overwhelming. They often develop stress-related illnesses such as heart disease, hypertension, or ulcers. An occasional break from caregiving enables an exhausted caregiver to regroup both physically and emotionally, and find the strength to carry on. The State of Connecticut offers the following types of services for caregivers through this application form:

RESPITE CARE: Respite care is a short term option designed to provide a break from the physical and emotional stress from caregiving. Respite care services include, but are not limited to: adult day care, home health aides, homemaker, companion, skilled nursing care, or short term assisted living or nursing home care. Funds may be used for day or night respite. Services are available through the **National Family Caregiver Support Program** or the **Connecticut Statewide Respite Care Program**. A mandatory assessment must be completed before respite services are provided.

SUPPLEMENTAL SERVICES: Supplemental services are one time health-related items or service options designed to help “fill the gap” when there is a need or there are no other ways to obtain the service or item. Supplemental services help improve the quality of life for the care recipient and help to alleviate the strain on caregivers who care for older individuals. Supplemental services include, but are not limited to, home safety modifications and medical related equipment. These services are available through the **National Family Caregiver Support Program** only.

PROGRAM DESCRIPTION: Programs to assist caregivers are described on page two. The program selected for you will depend on available funding, meeting the eligibility requirements, and available services.

The term ‘caregiver’ means an adult relative or non- relative, or another individual who is an informal provider of in-home and community care. Only caregivers who provide care to the applicant that meets the eligibility requirements listed on the following page may receive services under these programs. **All applicants must have an identified caregiver in order to receive services.** Services are funded through National Family Caregiver Support Program or the Connecticut Statewide Respite Care Program.

Please keep program descriptions on pages one and two for your records.

The National Family Caregiver Support Program

The **National Family Caregiver Support Program (NFCSP)** is funded by the Administration For Community Living , and is operated in partnership with the State of Connecticut Department on Aging and the Connecticut Area Agencies on Aging. **This program requests a cost share contribution toward the cost of services received based on the care recipient's monthly income as listed below, donations are accepted for care recipients under 100% of the poverty level:**

The Connecticut Statewide Respite Care Program

The **Connecticut Statewide Respite Care Program (CSRCP)** is funded by the State of Connecticut Department on Aging, and is operated in partnership with the Alzheimer's Association, Connecticut Chapter, and the Connecticut Area Agencies on Aging. **This program has a mandatory 20% co-payment toward the cost of services.** Due to financial hardship, a waiver request may be submitted.

To be eligible, the person receiving care must:

1. Have Alzheimer's disease or an irreversible dementia such as that which may result from: Multi infarct dementia, Parkinson's disease, Lewy Body Dementia, Huntington's disease, Normal Pressure Hydrocephalus, or Pick's disease. (The applicant or authorized agent must provide a completed "Physician Statement" from a physician stating that the patient has been diagnosed with dementia.)
2. The person with the diagnosis must not have an income of more than **\$44,725** a year or have liquid assets of more than **\$ 118,905**.

Two options of care are available for CSRCP and NFCSP:

1. **Traditional Respite Services** – A Care Manager will order and monitor services through a licensed service provider such as a skilled or non-skilled service agency.
2. **Self- Directed Care** – The caregiver will select, hire, and supervise individuals other than a spouse or conservator to provide respite care. This option provides more flexibility in the selection and delivery of respite services.
